Wharves and boat ramps bylaw

In general, we're proposing to relax our Wharves and Boat Ramps Bylaw as we think some parts of it are unnecessarily strict. We've also removed some parts which are covered in other bylaws, policies or in legislation. We've also updated the definitions to reflect our proposed bylaw, and tidied up the wording in general. Cemeteries bylaw

We're proposing some important changes to reserving the exclusive right of burial in a certain plot. We're also proposing some other changes because it's become more common for families to run funerals without using funeral directors and this sometimes comes at a cost to us. We're making the bylaw clearer about our powers to remove tributes that are making it difficult for us to keep the area maintained. Check out our full proposals here:

Food grading bylaw

Things have changed since we made our last bylaw on food safety. We're proposing to remove the food safety rules from our current bylaw, because it's now covered by the Food Act 2014. For example – a business can be closed down under the Food Act if its hygiene standards are not acceptable. We're also proposing to make some improvements to the way we grade food businesses. Nuisance bylaw

We've made some proposed changes to our Nuisance Bylaw. We've updated definitions to make our intent clearer, and removed parts of the bylaw we think are best addressed by the Police, such as disorderly behaviour, and damage to public places. We've introduced rules around keeping livestock, bees, pigs and poultry in urban areas or low density residential zones and we're adding some new fees. We're also proposing to revoke some bylaws that apply only to the Kaiaua, Pūkorokoro / Miranda areas that were part of the Franklin District in the past.
